FEATURES

- FAA TSO C90d certified
- Granger's single piece rotationally molded polymer shell has been time tested with positive results for over 20 years. The results show impact resistance, durability, reduced maintenance and lowest total cost of ownership.
- Polyethylene body materials contain UV protectant additives.
- Body available in colors for easy identification & increased operations efficiency.
- Reduced number of fasteners allows for faster airworthiness inspections.
- Single-piece seamless body allows for inventory reduction of spare parts.
- Polyethylene construction exceeds 14 CFR Part 25 Appendix F, Part 1 paragraph (a)(2)(IV) and unlike Polypropylene or Polycarbonate, does not emit toxic or hazardous fumes.
- High strength aluminum base. Designed to handle baggage and heavy cargo.
- Reduced total maintenance costs and occurrences.
- Reduced tare weights offer fuel burn savings.
- Unique design assists in loading container, thus reducing man hours.
- Increase your return on investment while reducing your capital investment
